

Our Goal:

To raise \$100,000 to support the cost of the renovations and new equipment needed for our kitchen project which will benefit the Church and our Community Outreach Programs

What Are The Benefits?:

- ◆ The new facility will provide safe and sanitary conditions for food preparation and serving
- ◆ We will have an efficient and modern layout of the space
- ◆ The dated kitchen equipment will be replaced with modern appliances
- ◆ The space will be designed and built to be fully compliant with life safety codes and ordinances
- ◆ Our adults and youth will have a much improved space for fellowship
- ◆ The work will be completed this fall and provide immediate benefits to the entire church family
- ◆ Having a functioning kitchen will allow our Church to expand our community outreach

Why Is This Needed?:

- ◆ Continued use of the kitchen facility as it exists today is not feasible long term
- ◆ Due to the functional deficiencies it is not compliant with current building and safety codes
- ◆ The current equipment is obsolete and unrepairable

How Can You Help?:

- ◆ Please consider a pledge to fund this needed and well supported project
- ◆ Gifts can be made in lump sum amounts or in pledges over a three year period
